

We aren't just talking about superior quality, we're proving it!

LIVE PRODUCT DEMONSTRATIONS

Huber Engineered Woods, the makers of AdvanTech® flooring and ZIP System® roof and wall sheathing are proud to offer live demonstrations and hands-on training.

Water Tower Demo

See first hand what happens when rainfall pounds your jobsite -- and see which product has the lowest water absorption in the industry!

Panel Buster Demo

You want a strong, stiff floor? This demo is for you. Watch how two panel specimens react to the same static load -- only one will survive!

Voted #1 in Quality for 10 Years

Come and see for yourself why we've been voted #1 in quality for 10 consecutive years.

And more...

Popcorn Air Barrier Demo

If you're not conducting blower door testing, you will be soon. Come see how ZIP System outperforms housewrap as an air barrier.

Water Penetration Demo

Need reliable moisture protection? You'll see how ZIP System stays water tight while osb/housewrap leaks almost immediately under wet conditions.

Get Ready for Changing Energy Codes

Learn how to stay ahead of changing energy codes by building with ZIP System roof and wall products.

And even more...

Up to \$900 First-Time User Rebate Available!
