Dear Decking Industry Professional:

Deck builders and product manufacturers alike raised concerns at the 2004 DeckExpo over the compatibility of new-generation wood treatments and fasteners. As a result, many realized the need for a unified industry voice. NADRA is that voice. The association is in its 6th year as a 501(c)6 not-for-profit corporation. NADRA serves as a trade association with emphasis on safe building practices and deck safety. It was a tough year for many industry professionals and will continue to be a challenge for all of us in the months ahead. The North American Deck and Railing Association Board of Directors, Executives, Staff, Volunteers and Committee Chairs are all working hard for the Industry at Large. Now more than ever, by working together cohesively, we can achieve this goal on making sure we raise the bar so that qualified, conscientious, talented deck contractors get the jobs they bid on. NADRA is the voice of the deck and railing industry consisting of Manufacturers, Builders, Suppliers, Distributors/Dealers/Retailers, Lumberyards, Wholesalers and Industry Service Providers all working together for the growth of the industry.

What a great time for you and your company to get involved!!!

NADRA Board of Directors

The mission of the North American Deck and Railing Association (NADRA) is to provide a unified source for the professional development, promotion, growth, and sustenance of the Deck and Railing building industry in North America so that members can exceed the expectations of their customers.
