Marvin Signature® collection

REDEFINING THE STANDARD

The Ultimate product line, part of the Marvin Signature collection, unites beautiful design with exceptional craftsmanship. Add character to almost any space with our most extensive selection of shapes, styles, sizes, and options—including wood interiors protected by tough wood or aluminum exteriors. With nearly limitless opportunities for customization, Ultimate can match your vision—and give it room to grow.

About Us

At Marvin, we're driven to imagine and create better ways of living, helping people feel happier and healthier inside their homes. We believe that our work isn't just about designing better windows and doors—it's about opening new possibilities for the people who use them.

WINDOWS

ULTIMATE CASEMENT WINDOW

WINDOW TERMS + DEFINITIONS

1. FRAME

There are three components to the frame: the header across the top, the jambs down each side, and the sill across the bottom. Marvin frames are built strong with a variety of high-quality wood species.

2. GLAZING

The glass in a window is called glazing. Marvin's broad range of glazing options can meet both high-performance and refined aesthetic requirements.

3. LITE

Each area of glass is called a lite. Marvin offers divided lite patterns for whatever look you wish to create.

4. HARDWARE

Marvin uses only the highest quality locks, handles, lifts, pulls, and hinges in a wide variety of durable finishes.

5. SASH

The sash—operating or stationary—is comprised of horizontal rails, vertical stiles, and glazing. Marvin's large solid sash offer precise fit and ease of operation.

WINDOW OPERATING STYLES

DOUBLE HUNG

Double hung windows have two movable sashes which operate vertically.

CASEMENT

A window that is hinged to its frame at the side and opens like a door.

FIXED OR PICTURE

An inoperable window with direct glaze or in-sash configurations. Available in a wide range of polygon and radius shapes.

IN-SASH PICTURE

- Fixed window designed to match the profiles of operable windows like casement, awning, or double hung
- Available in large sizes up to 8' wide × 8' high

AWNING

An awning is hinged to the frame at the top and opens outward. If hinged on the bottom, it's called a hopper.

GLIDER

A window with a sash that slides horizontally to open and close.

DIRECT GLAZE PICTURE

- Fixed window with no sash—the glass is glazed directly into the frame
- Available in stunningly large sizes with widths or heights up to 12'

MORE FLEXIBILITY TO MEET ANY DESIGN CHALLENGE.

Marvin has an extensive selection of styles, sizes, shapes, and options.

DOUBLE HUNG WINDOWS

Ultimate Double Hung windows combine state-of-the-art design with classic style. Advanced engineering and high-quality construction make our double hung windows incredibly durable, versatile, and easy to use.

ULTIMATE DOUBLE HUNG G2 WINDOW IN EBONY

ULTIMATE DOUBLE HUNG G2

ULTIMATE DOUBLE HUNG G2 WINDOW IN WHITE WITH OIL RUBBED BRONZE HARDWARE

ULTIMATE DOUBLE HUNG G2

The Ultimate Double Hung G2 window is an embodiment of our dedication to the craft of creating windows and doors. Influenced by the rich, historical significance of this window style and inspired by innovative design, each feature is thoughtfully added and every detail is carefully considered. This is all in service of shaping a window that deserves to be in the unique homes our customers desire.

INTERIOR

EXTERIOR

UNIQUE WASH MODE ALLOWS CLEANING OF BOTH SIDES OF GLASS FROM INDORS

ULTIMATE DOUBLE HUNG G2

Engineered for performance and designed to inspire, each aspect of the Ultimate Double Hung G2 window was made with purpose. Our engineers consider every detail from the most innovative features to the most minute subtleties, all because the windows in your home help illuminate the most important parts of your life.

INTERIOR FEATURES AND PERFORMANCE

RICH WOOD INTERIOR
Offers beauty and warmth with six wood species and ten interior finish options.

NARROW CHECKRAIL
Provides a sleek aesthetic at 1 15⁄16 inches to maximize daylight opening while maintaining historical accuracy.

TILT WASH MODE
Allows easy access to exterior glass for cleaning and maintenance.

EXCLUSIVE AUTOLOCK
Activates when the sashes are closed, locking the window.

ENERGY EFFICIENCY
Multiple glass options for meeting ENERGY STAR® standards in energy efficiency for various regions and climates.

SASH BALANCE SYSTEMS
Enables smooth operation at the largest sizes.

EXTERIOR FEATURES AND PERFORMANCE

DURABLE CLADDING
Extruded aluminum exterior cladding with an AAMA verified 2605 finish and backed by a 20-year warranty against chalking and fading.

EXPANSIVE SIZES
Larger than 5 feet wide by 10 feet high.

TRADITIONAL SILL BEVEL
The 14-degree bevel provides optimal water management while maintaining a classic look.

SUPERIOR WEATHER PERFORMANCE
LC-PG50 on most sizes. Optional commercial (CW) performance and IZ3 certified coastal performance on most sizes.

DESIGN VERSATILITY
An array of simulated divided lite patterns, interior and exterior color options, ten hardware finishes, and archtop models.

ALUMINUM INTER-LOCK
Eliminates drafts and improves the window's overall structural integrity.

ULTIMATE DOUBLE HUNG ROUND TOP G2

ULTIMATE DOUBLE HUNG ROUND TOP G2 WINDOW IN EBONY

EYEBROW RADIUS HALF CIRCLE TRANSOM EYEBROW TRANSOM HALF CIRCLE RADIUS HALF EYEBROW SINGLE HUNG*

ULTIMATE DOUBLE HUNG ROUND TOP G2

The Ultimate Double Hung Round Top G2 window will add traditional arching and elegant lines to your home or historic preservation project. With the same features and grace of the Ultimate Double Hung G2 window, this window offers design flexibility with numerous variations of radius shapes. Choose from multiple divided lite patterns to further enhance the arch of the window. These versatile windows—available in a wide range of sizes—can provide a subtle accent or a dramatic focal point to enhance your home design.

ROUND TOP VARIATIONS

EYEBROW AND HALF EYEBROW RADIUS OPERATING DOUBLE HUNG

A classic look with a gentle eyebrow radius. Beautiful as a stand alone window or as part of an assembly.

HALF CIRCLE TRANSOM

This simulated half circle transom window can be sized to stand alone or easily fit above a double hung window.

EYEBROW TRANSOM AND PICTURE

This stationary window is available as a transom or picture window. These windows are designed to complement the Ultimate Double Hung G2 window with correlating sizes and matching springline.

HALF CIRCLE RADIUS OPERATING DOUBLE HUNG

A dramatic window with a true half circle arch. The look gives a beautifully smooth transition from jamb to header. Both sashes are operable.

HALF EYEBROW SINGLE HUNG

This striking window style adds elegant curve to a two-wide window assembly (not shown)

*Available on Single Hung only.

ULTIMATE DOUBLE HUNG INSERT G2

ULTIMATE DOUBLE HUNG INSERT G2 WINDOW IN SATIN NICKEL

ULTIMATE DOUBLE HUNG INSERT G2 WINDOW IN SATIN NICKEL

ULTIMATE DOUBLE HUNG INSERT G2

The Ultimate Double Hung Insert G2 window adds quality craftsmanship, beauty, and energy efficiency to your home without compromising architectural integrity. Its frame-in-frame design is built precisely to seamlessly fit into your unique window opening, so there’s no need to remove the existing frame or disturb the exterior or interior trim of your house.

ULTIMATE SINGLE HUNG G2

ULTIMATE SINGLE HUNG G2 WINDOW

SINGLE HUNG G2 WINDOW WITH CONTEMPORARY LIFT LOCK IN BRASS

ULTIMATE SINGLE HUNG G2

A contemporary classic, the Ultimate Single Hung G2 window blends traditional beauty and state-of-the-art performance. With the top sash stationary and the bottom sash operable, a single hung style is often preferred in a cottage-style window with a small top sash that doesn't need to open. Reliable and energy efficient, the Ultimate Single Hung G2 window offers an auto-lock feature for convenient security, durable hardware for smooth operation, and Marvin's unique Wash Mode for easy cleaning. Customize your design with round top styles or optional Lift Lock, Marvin's exclusive bottom rail locking mechanism for easier operation in hard-to-reach areas.

ULTIMATE DOUBLE HUNG MAGNUM ROUND TOP WINDOW

WOOD DOUBLE AND SINGLE HUNG WINDOWS

The Ultimate Wood Double/Single Hung and Ultimate Wood Double Hung Magnum are quintessentially traditional windows designed to fit seamlessly into the historic fabric of your home, neighborhood, or community. With residential and commercial applications, these windows are perfect for any historic building.

WOOD DOUBLE/SINGLE HUNG EXTERIOR

WOOD DOUBLE HUNG MAGNUM INTERIOR

CASEMENT + AWNING WINDOWS

Ultimate Casements and Awnings are innovative, high-performing windows. Delivering exceptional versatility and clean profiles, these state-of-the-art windows are designed to suit virtually any application.

ULTIMATE CASEMENT PUSH OUT WINDOW WITH WOOD INSWING SCREENS

ULTIMATE CASEMENT STYLES

ULTIMATE CASEMENT WINDOW

FULL FRAME OR NARROW FRAME

The Ultimate Casement and Ultimate Casement Narrow Frame windows are the most versatile and innovative casement windows ever produced. Ultimate Casement styles feature concealed multi-point locks, a patented Wash Mode, and durable hardware that operates smoothly even at the largest sizes.

ULTIMATE CASEMENT

A recessed sash for a traditional look, plus a full jamb, offers design flexibility for new construction or full frame replacement.

ULTIMATE CASEMENT NARROW FRAME

A flush sash to the exterior and narrow jamb depth make this window an easy choice for frame-in-frame replacement or more contemporary new construction applications.

ULTIMATE CASEMENT EXTERIOR WITH 4 3/8" FULL JAMB

ULTIMATE CASEMENT NARROW FRAME EXTERIOR WITH 2 3/8" NARROW JAMB

JAMBS + PROFILES

The Ultimate Casement has a recessed sash for a traditional or historic look. The Ultimate Casement Narrow Frame has a flush-to-frame sash for a contemporary look.

ULTIMATE CASEMENT EASY WASH MODE

Ultimate Casement operates in a way so revolutionary that we've patented it, making Marvin the only place you'll find it. The hardware allows access to both sides of the glass from the inside of your home, making window washing stress- and ladder-free.

Marvin exclusive Wash Mode not available on Ultimate Casement windows in sizes less than 20 inches wide or Ultimate French Casement, Ultimate Awning, or Round Top windows.

ULTIMATE CASEMENT FEATURES + OPTIONS

MULTI-POINT LOCKING SYSTEM
Multi-point locking mechanisms enhance performance and make large casements easy to operate.

ENDLESS DESIGN OPTIONS
A variety of divided lite patterns, including a double hung look make energy-efficient casements the perfect replacement window in older homes.

LOCK STATUS SENSOR
Hidden Lock Status Sensor option connects with your smart home to indicate when windows are closed and locked.

LARGE SIZES OPEN WITH EASE
We have developed the most durable hardware in the industry, which provides easy opening and smooth operation on even the largest casements.

WINDOW OPENING CONTROL DEVICE
Limits the casement sash opening to less than 4 inches when engaged. The release mechanism allows for operation beyond 4 inches. This option meets the ASTM F2090-21 standard.

FRICTION LIMITER
Flip a lever to lock the sash securely in place at multiple set angles, allowing you to open your window on windy days. Available for push out only.

ULTIMATE CASEMENT

ULTIMATE BAY + BOW

ULTIMATE DOUBLE HUNG G2 BAY WINDOW

ULTIMATE CASEMENT BOW WINDOW IN WHITE

ULTIMATE BAY

Ultimate Bay windows are a group of connected windows extending outward from a room at desired angles—allowing light and views from multiple directions. Some feature a larger operating or stationary window flanked by smaller windows. Ultimate Bay windows can create space indoors for a cozy nook or window seat or maximize a scenic view to serve as a room’s focal point. They can be created with combinations of 3 to 6 casement or double hung windows (fixed or operating).

BAY INTERIOR WITH CASEMENT AND PICTURE WINDOWS

ULTIMATE BOW

Ultimate Bow windows are a series of windows connected to form a gentle outward curve. Typically made up of four or more windows, Ultimate Bow windows can create a small nook, open up a view, bring in more light, and boost visual appeal from inside and out. Bow windows are available with casement, double hung, or picture windows. They can be created with combinations of 3 to 6 casement or double hung windows (fixed or operating).

ULTIMATE CASEMENT BOW WINDOW IN BRONZE

DOORS

ULTIMATE MULTI-SLIDE DOOR AND DIRECT GLAZE POLYGON WINDOW IN VERTICAL GRAIN DOUGLAS FIR

DOOR TERMS + DEFINITIONS

1. FRAME

The door frame includes the head jamb across the top, side jambs, and the sill at the bottom. Marvin frames are built strong to stand up to heavy door usage year after year.

2. STILES + RAILS

The horizontal wood members of a door are called rails; the vertical components are called stiles. With a traditional French door design, the bottom rail is about 8 inches high with 4 ¾ inch stiles and top rail. Doors with a more contemporary style often feature more glass with stiles and rails as sleek as 3 inches.

3. SILL

Our door sills are made of Ultrex®, our proprietary pultruded fiberglass that is exceptionally strong and virtually impervious to time, weather, and pressure. Ultrex door sills provide excellent performance in hot or cold climates, plus durability over the long haul by being resistant to warping, denting, and fading.

4. PANELS

In a door, the panel is the main section, operating or stationary, that is installed into the frame. Marvin doors come in many sizes, some of the industry's largest, but they all share the tight tolerances for fit and quality finishes.

DOOR OPERATING STYLES

OUTSWING DOOR

Single or double swinging doors open to the exterior.

INSWING DOOR

Single or double swinging doors open to the interior.

SLIDING DOOR

Save space with a door panel that operates by sliding along a track.

BI-FOLD DOOR

This door folds open and closed like an accordion and can include up to 16 panels.

LIFT AND SLIDE DOOR

For openings as large as 48 feet wide and 12 feet high, substantial door panels fully open into pocket or stacked configurations.

MULTI-SLIDE DOOR

Another option to blend interior and outdoor living with a modular frame system.

MAKE EVERY ENTRANCE GRAND

Marvin doors are designed to maximize the potential of any opening, view, and living space.

DOOR FEATURES + OPTIONS

BEAUTY WITH PERFORMANCE
Designed for durability and to minimize air and water infiltration. Many of our door products are certified to a light commercial rating of PG40.

SOLID WOOD PANELS + FRAMES
The sound of a Marvin door closing is a quiet statement of quality. Wood in the panels and frames make for an elegant, crafted look and feel, and provides a weather-tight closure for outstanding energy efficiency.

MULTI-POINT LOCKING SYSTEM
Concealed stainless steel head and foot bolts within the door secure it solidly at three points. Choose either a keyed or non-keyed lever handle. Multi-point lock comes standard.

ADJUSTABLE HINGE
Standard on swinging doors, an adjustable hinge makes it easy to fine-tune the fit of a swinging door over the door's lifetime. Available in a variety of finishes, plus coastal options.

SILLS
Our Performance and Accessibility Sills are made of durable Ultrex fiberglass and provide solutions for varying applications.

RAISED AND FLAT PANELS
Raised and flat panels add depth and style to sliding and swinging French doors, including arch top swinging doors. This option changes the overall aesthetic of your door when less than a full lite of glass is desired.

ULTIMATE LIFT AND SLIDE DOOR IN BRONZE

ULTIMATE LIFT AND SLIDE DOOR

With openings up to 48 feet wide and 12 feet high, now you can add acres to your floor plan. Available with pocketing panels that slide into the wall, completely disappearing from view, or stacked panels that slide and stack perfectly within the door frame for a seamless transition from inside to out. Both are available with exclusive flush-mount handles and exterior finger pulls that virtually disappear when not in use.

INTERIOR

HARDWARE OPTIONS

Available with exclusive flush-mount hardware, interior finger pull, and optional exterior finger pull.

POCKET AND STACKED CONFIGURATION

When open, panels either slide into the wall cavity or stack neatly into the door frame. They glide on the inconspicuous 3/16 inch high exposed track.

WOOD SPECIES

Offering a rich, warm look, many custom options, and design versatility, wood is a premium choice. Wood can be used on both the interior and exterior of our Ultimate windows and doors and provides great insulation. Treatments such as stain and paint work well when applied. Marvin sources the best, highest quality raw wood and uses refined techniques to process it.

STAIN + PAINT

Compared to painting or staining on the job site, our factory finishes provide consistent quality and performance. Our extensive knowledge about wood as a material and how it handles stains and paints, and the many years we’ve spent perfecting our finishing process, ensures your windows and doors arrive ready to install.

CUSTOM COLOR: ANY COLOR YOU WANT

EXTRUDED ALUMINUM

Extruded aluminum is an extremely tough cladding that protects wood windows, mimics the profiles of wood, and provides superior durability. It is the most commonly ordered exterior material for our Ultimate products.

Select from our palette of 19 durable extruded aluminum colors, including a spectrum of rich hues and three pearlescent finishes. If you have more specialized needs, we can also work with you to create a custom color.

WOOD

Wood is a premium material for windows and doors, offering classic aesthetic appeal, many options for customization, and design versatility.

We treat exposed millwork with a water repellent wood preservative to help it last longer. Choose from one of the four options below. Each is ready to be finished to match your project's exacting requirements.

EXTERIOR CASINGS + SUBSILLS

BRICK MOULD CASING AND SPECIAL SUBSILL WITH CUSTOM MULL COVER IN HAMPTON SAGE

EXTERIOR CASINGS + SUBSILLS

Adding Marvin extruded aluminum or wood casings and subsills to your windows and doors provides great architectural detail to any home. Ultra-durable extruded aluminum casings feature a beautiful factory-applied finish that resists chalking, fading, pitting, corrosion, and marring. Casing profiles are consistent around the sides and top of a window or door, except for the Potter casing profile, which has a taller head. Custom casings and subsills are also available.

DIVIDED LITES

DIVIDED LITES

Simulated divided lites, available in a number of different styles, mimic the look of individual panes of glass with the energy efficiency of dual pane insulated glass.

Our custom capabilities allow us to create almost any divided lite pattern to match your design style.

SIMULATED DIVIDED LITE (SDL)
SDL bars are permanently adhered to both sides of the glass. Simulated Divided Lites with Spacer Bars (SDLs) are an energy-efficient way to create the look of authentic divided lites.

AUTHENTIC DIVIDED LITE (ADL)
Separate panes of glass are glazed between muntin bars for historical accuracy. Available exclusively with wood exterior units.

GRILLES-BETWEEN-THE-GLASS (GBG)
Grilles are permanently installed between the glass panes. This low-maintenance grille offers the look of a divided lite pattern with the ease of cleaning just one pane of glass. Available with different interior and exterior colors.

GLASS + GLAZING

ULTIMATE AWNING AND PICTURE WINDOWS AND INSWING FRENCH DOOR IN PEBBLE GRAY

GLAZING PROFILES

Interior and exterior glazing profiles are available in Ogee and Square. Choose Ogee for more traditional projects, and Square for a clean, contemporary look. Interior and exterior glazing profile options vary by product type.

OGEE

SQUARE

SQUARE EXTERIOR GLAZING PROFILE

DUAL PANE GLAZING

Our standard glazing is dual pane: two panes of glass with Low E coatings and insulated with argon gas. Compared to a single glass pane, dual pane glass cuts energy costs significantly because of low emissivity coating and the gas-filled insulating space between the glass layers.

TRIPLE PANE GLAZING

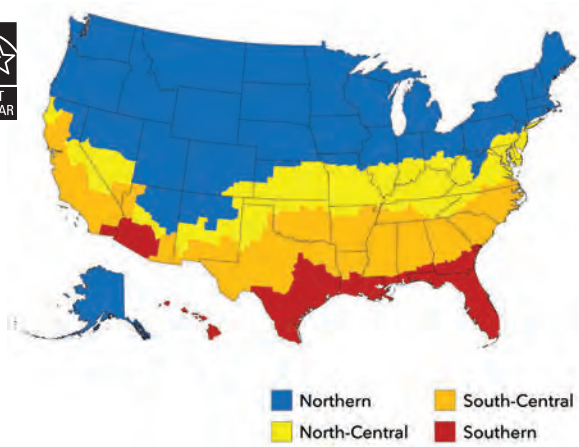

Triple pane glazing consists of three panes of glass with Low E coatings applied to the surface. Two glass spaces are insulated with argon gas between the panes. Available in products where glazing thickness can be greater than ¾ inch.

GLASS + GLAZING

The thermal and structural properties of wood combined with the right glazing make Marvin wood and extruded aluminum clad products an optimal choice for energy efficiency. We offer thousands of window and door options with two or three panes of glass and a range of glazing options to meet the performance challenges of any climate.

GLASS COATINGS

Low E coatings are microscopically thin, essentially invisible coatings on the glass surface that help manage the amount of light and heat conducted through a window pane or reflected away from it, reducing a home’s dependence on heat and air conditioning. The national ENERGY STAR® program recognizes products that meet strict energy-efficiency guidelines to suit climates in different areas of the country, and Marvin offers products to meet climate and code requirements in every region.

LOW E1

Low E1 coating is a good choice when you want maximum solar heat gain and radiant heating properties. This type of coating is generally used in Northern climates where heating is prioritized over cooling. You’ll reap maximum benefits when windows with this type of coating are positioned to receive direct sun exposure.

LOW E2

The most common Low E coating since it works well across most geographic regions and climates. Low E2 with two metallic coatings balances less solar heat gain and improved radiant heating properties.

LOW E3

Used in applications where solar heat gain may be a concern, low E3 coating uses multiple metallic layers for radiant properties similar to Low E2. This type of coating is most commonly used in Southern, sunny climates where cooling is prioritized over heating.

SPECIALTY GLASS

Our specialty options include glass for unique project needs like sound abatement (STC/OITC), high altitudes, Sea Turtle Conservation Codes, and California fire zones. We also offer laminated glass on certain products that are designed specifically for hurricane zones.

A variety of decorative glass options, including those shown below and others, are available to meet the unique needs of each project. Laminated glass is also available in clear, bronze, gray, or green with tinted interlayers.

HOME AUTOMATION

ULTIMATE CASEMENT WINDOW AND SLIDING FRENCH DOOR WITH CONCEALED LOCK STATUS SENSOR

ULTIMATE MULTI-SLIDE DOOR

LOCK STATUS SENSOR

Our Lock Status Sensor brings smart home capabilities to Marvin windows and doors. This affordable solution is installed in the factory and fully concealed—meaning no unsightly sensors attached on the exterior or interior and no additional modification of your product once installed. The sensor can be wired or wirelessly connected, working in tandem with your smart home security system to indicate if windows and doors are closed and locked and providing peace of mind when security is a concern.

SCREENS

ULTIMATE DOUBLE HUNG INSERT G2 WINDOW IN STONE WHITE WITH FULL SCREENS

SCREENS

Choose from an aluminum surround in three finishes or a wood interior surround that complements warm wood interiors. Marvin screens come standard with Marvin Bright View™ – a fiberglass screen mesh that provides improved airflow and more natural light while keeping insects out. Bright View repels water and resists dirt and grime for a sharp, vivid view.

CASEMENT SCREEN OPTIONS

WOOD SCREEN SURROUND
The patented wood screen surround with wood interior and aluminum exterior features Marvin Bright View™ screen mesh. Aluminum screen mesh options also available.

INSWING CASEMENT SCREEN
The beautifully crafted inswing screen adds a classic touch and allows access to operate push-out casement and awning windows.

CHARCOAL FIBERGLASS

DOUBLE HUNG SCREEN OPTIONS

FULL OR HALF SCREEN

Exterior aluminum screen with an aluminum surround. The full screen covers both the top and bottom sash. The half screen only covers the bottom sash.

DOUBLE HUNG STORM OPTIONS

TWO-LITE WOOD STORM SASH OR SCREEN

A wood frame containing non-removable glass. The storm sash can be removed during the summer and replaced with a wood-framed screen. Available only for wood windows.

STORM AND SCREEN COMBINATIONS

A combination unit is composed of two glass panels and one screen panel that can be easily removed from the interior for cleaning. Available with a wood (bare or primed) or aluminum surround, panels can be configured multiple ways, glass above screen, screen above glass, or glass above glass.

ENERGY PANEL

Often confused with storm windows, an energy panel is technically a glazing option. It is a removable, exterior glass panel finished on the edges by a surround. Energy panels cover the exposed glass surface of each sash and offer added energy efficiency for wood windows with single glazing.

DOOR SCREEN OPTIONS

SCENIC DOOR SLIDING SCREEN

The Marvin Ultimate Sliding Screen operates with ease and conceals when not in use. The screen is unobtrusive even in large sizes measuring up to 15 feet wide and up to 10 feet high uni-directional or up to 29.5 feet wide bi-parting.

ULTIMATE SWINGING SCREEN DOOR

With profiles that complement the aesthetics of the door, swinging door screens feature robust, durable extruded aluminum surrounds and concealed hinges.

ULTIMATE SLIDING SCREEN DOOR

Aluminum top hung sliding screen with roller bar, adjustable rollers and unmatched sliding operation.

Marvin window and door screens come standard with Marvin Bright View™ – a fiberglass screen mesh that provides improved airflow and more natural light while keeping insects out. Bright View repels water and resists dirt and grime for a sharp, vivid view.

WINDOW OPENING CONTROL DEVICES

Marvin Window Opening Control Devices (WOCD) meet the ASTM F2090-21 standard, created to assist in the prevention of window falls. To meet the standard, our devices limit the window's net clear opening to less than 4 inches (when the sash is open) and have a release function allowing the window to open completely. In order to meet the safety standard, WOCD disengagement takes two independent actions, which helps prevent accidental release. Devices will then automatically reengage once the window is closed and again limit the window opening to less than 4 inches upon re-opening.

DOOR HARDWARE

ULTIMATE SWINGING DOOR WITH MINIMALIST HANDLE IN MATTE BLACK

DOOR HARDWARE

Ultimate door hardware is engineered for durability, ergonomics, and to be a beautiful complement to your Marvin door. Satin Nickel, Brass, and Oil Rubbed Bronze finishes are available with a PVD finish. The Physical Vapor Deposition (PVD) process adds a layer of toughness to hardware exposed to environmental factors like direct sun and humidity. PVD finishes resist fading and discoloration, even in coastal areas.

GALLERY HARDWARE

ROCKY MOUNTAIN HARDWARE WITH EDGE ESCUTCHEON, SHIFT LEVER, AND WIRE TEXTURE IN SILICON BRONZE MEDIUM

GALLERY HARDWARE

Marvin Gallery Hardware is a curation of door hardware from three renowned manufacturers. Each set chosen meets Marvin’s high standards for aesthetics, quality, and craftsmanship.

This hardware collection makes it easy for you to find the hardware choice that perfectly reflects your unique design sensibilities, vision, and personality. From contemporary to traditional, each beautiful piece heightens the aesthetics of any Marvin door.

ASHLEY NORTON

Established in 1987, Ashley Norton is one of the leading designers of fine architectural hardware. With a broad range of designs to suit any architectural style and an abundance of finish options, Ashley Norton solid brass and bronze hardware is built by the most talented craftsman for the most discerning customers.

BOUVET

Founded in 1884 in France by famed ironworker Gustave Bouvet. Metal Style Bouvet combines traditional French ironwork craftsmanship and materials with modern technology to create distinctive hardware for equally distinctive doors. Metal Style Bouvet represents the finest of decorative French-inspired hardware.

ROCKY MOUNTAIN HARDWARE

Rocky Mountain Hardware is expertly crafted in America using only the finest art-grade bronze and precision mechanisms. With over three decades of experience, Rocky Mountain Hardware continues to set itself apart with inimitable style, boundless capabilities, and exceptional quality guaranteed to stand the test of time.

COASTAL

ULTIMATE DOUBLE HUNG G2 AND ROUND TOP WINDOWS AND OUTSWING FRENCH DOOR G2 IN STONE WHITE

COASTAL PRODUCTS

COASTAL PRODUCTS

Coastal living is beautiful and serene until the storms hit. When you live by the water, you need to know that your windows and doors will stand up to the challenge of coastal conditions. We offer windows and doors specifically designed for the extreme conditions and construction requirements of coastal zones.

	<p>ULTIMATE CASEMENT + AWNING</p> <p>Offer a variety of customization, expert craftsmanship and superior value. Casement is also available in Round Top.</p>
	<p>ULTIMATE DOUBLE HUNG G2</p> <p>Blends traditional beauty with state-of-the-art window performance. Also available in an operating Round Top.</p>
	<p>ULTIMATE WOOD DOUBLE HUNG</p> <p>Incredibly durable, versatile and easy-to-use. An all-wood exterior and interior bring beautiful and classic style to your project. Also available in Round Top.</p>
	<p>PICTURE / DIRECT GLAZE / TRANSOM</p> <p>Picture (in-operable in-sash glazing - like Casement and Awning) and Direct Glaze (in-operable with direct to frame glazing) windows are available in a wide range of polygon and radius shapes. Transoms are in-sash glazed and can be stationary or operating.</p>
	<p>ULTIMATE BI-FOLD DOOR</p> <p>Creates a wide-open transition to outdoor spaces. Spanning up to 55 feet in width, the Bi-Fold door offers more glass and a clean aesthetic.</p>

ULTIMATE MULTI-SLIDE DOOR
Blends exceptional views and indoor/outdoor living with performance. Available in styles up to six panels uni-directional and ten panels bi-parting.

2 1/4" ULTIMATE SWINGING FRENCH DOOR G2
Combines a traditional French style with expert craftsmanship, engineered for both quality and performance. Select from inswing or outswing operation in configurations up to 14 feet wide.

2 1/4" ULTIMATE SWINGING NARROW PROFILE DOOR
The narrow 3-inch stiles and rails increase the glass opening and help provide larger views. Choose between inswing or outswing operation and configurations of up to four panels.

2 1/4" ULTIMATE SLIDING FRENCH DOOR G2
The elegant look of a traditional French door with a space-saving sliding design. Available in 4 panels up to 16 feet wide x 10 feet high. Superior quality with nearly effortless operation.

2 1/4" ULTIMATE SLIDING NARROW PROFILE DOOR
Features 3-inch stiles and rails for a more contemporary look. Available in 4 panels up to 12 feet wide and 8 feet high.

MULL OPTIONS
Dramatic ocean views are often created by grouping IZ3 windows in an assembly, sometimes joining them both horizontally and vertically. The space between the windows where they are joined together is called a mull. Mulling options for Marvin IZ3 Ultimate Casement windows and Ultimate Double Hung windows with frame-to-frame mulling configurations are WDMA certified in most sizes.

ULTIMATE DIRECT GLAZE PICTURE AND CASEMENT WINDOWS

Since we opened as a family-owned and -operated lumber and cedar company in 1912, Marvin has designed products to help people live better. We remain committed to bringing beauty and simplicity into people's lives with windows and doors that stand the test of time.
