WEYERHAEUSER PREMIUM GREEN DOUGLAS-FIR LUMBER

Grown in the Pacific Northwest, Premium Green Douglas-fir is a softwood lumber product ideal for structural framing in residential applications. A solid building structure is important to homeowners, and quality builders appreciate the premium grade that demonstrates their pride in craftsmanship.

Features of Weyerhaeuser's Premium Green Douglas-fir products include:

- Attractive, square-edge appearance with minimal wane
- High strength and stiffness, while easy to nail
- Manufactured to stay straight and true
- Treated with a moldicide to help keep wood bright and clean
- Sustainably harvested from Weyerhaeuser and third-party timberlands

Kuiken Brothers Rail Siding, Succasunna, NJ. Each year Kuiken Brothers receives over 500 rail cars of lumber, plywood and OSB direct from the premier mills in Washington & Oregon.

PREMIUM QUALITY, SUSTAINABLY HARVESTED

Consistent and Reliable

- Weyerhaeuser's advanced quality control and manufacturing systems ensure product that looks the same week-to-week, month-to-month and year-to-year.
- Our manufacturing technology with log optimization and computer controls creates high-quality, straight and square lumber.
- A mold inhibitor is applied to the entire piece of lumber, including both ends, to keep your lumber looking bright and clean through the build cycle.

Renewable and Sustainable

- Weyerhaeuser owns 2 million acres of forestlands in the Pacific Northwest, which we have been sustainably managing for more than 100 years.
- Our mills are certified to the SFI® standard, and every piece of Weyerhaeuser Premium lumber is marked with an SFI logo, providing you assurance of a product from responsible sources.
- Through our manufacturing processes, we maximize the use of each log by creating lumber, raw material for consumer goods, and green energy.

There When You Need Us

At Weyerhaeuser, our sales associates offer exceptional service, and our supply chain is focused on meeting your needs. You get the product you need, when you need it.

Premium Green Douglas-fir is available in 2x4 through 2x12, 4x4 and 4x6 sizes.

WEYERHAEUSER DEALER PARTNER

For over 100 years, Kuiken Brothers, a family owned and operated business, has been supplying top quality lumber, millwork and building materials to contractors and homeowners.

We currently operate five locations with rail siding which provides us with direct access to West Coast lumber mills, including Weyerhaeuser.

In fact, each year we receive over 500 rail cars of plywood, OSB, studs, pre-cuts and dimensional lumber shipped directly to us from the mill. We're confident that you—and your customers—will notice and appreciate this consistent and high quality lumber.
