MERRILLAT CABINETRY

A GREAT AMERICAN STORY

Merillat® Cabinetry was started in 1946 by Orville and Ruth Merillat. It began with Orville making cabinets by hand, and through decades of innovation, growth and unwavering commitment to the customer, it became the #1 cabinetmaker in America.

Left: Ruth and Orville Merillat are married in 1945.

MERILLAT CABINETY

FOUNDED ON HARD WORK

How do we continue the Merillat legacy? By working hard to not only bring you cabinets built to last, but also on-trend options you'll love. From timeless designs to smart storage solutions, Merillat delivers the dependable performance you need.

CRAFTED WITH PRIDE

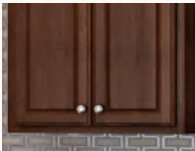

The Merillat® Mission: to build exceptional cabinetry that's as durable as it is beautiful.
For complete details and additional upgrade information, visit Merillat.com.

BUILT TO LAST

25
Year Limited
Warranty

Durable Standard Construction

DURABLE FINISH

Multi-step finishing system provides added value with a protective topcoat to resist scratching and stains.

QUALITY CONSTRUCTION

Industrial-grade 3/8" thick, engineered wood end panels attached using wood-to-wood glue and staples. Furniture-grade plywood construction upgrade available to meet your project needs.

SOFT-CLOSING DRAWERS

Full-extension, solid wood dovetail craftsmanship with drawer glides featuring the SoftAction™ design to reduce noise and pinched fingers.

SOFT-CLOSE FUNCTIONALITY

SoftAction six-way adjustable soft-closing door hinges to help ensure precise alignment and reduced noise for years to come.

ABOVE AND BEYOND

Meeting and exceeding Kitchen Cabinet Manufacturers Association (KCMA) standards, Merillat cabinets are a long-term investment in a home's overall value. To learn more about KCMA standards, visit KCMA.org.

YOUR KITCHEN RENOVATION

Step 1:

DREAM

When first looking for a new kitchen or bath, anything's possible. Our designers can help you combine design needs with style desires to capture your dream.

PAGE 6

Step 2:

DESIGN

Once you've achieved a vision, it's time to start making it a reality. We'll show you how you can transform your tastes from concept to creation.

PAGE 7

Step 3:

DECIDE

Which wood species? Door style? Colors? Accessories? There are no wrong answers. Make your selections and see your design come together at Merillat.com.

PAGE 8

Step 4:

DELIVER

Once you've made your selections, your designer and the Merillat® cabinetry team will continue to assist you from preparation to delivery, installation to support.

PAGE 22

Step 1: DREAM

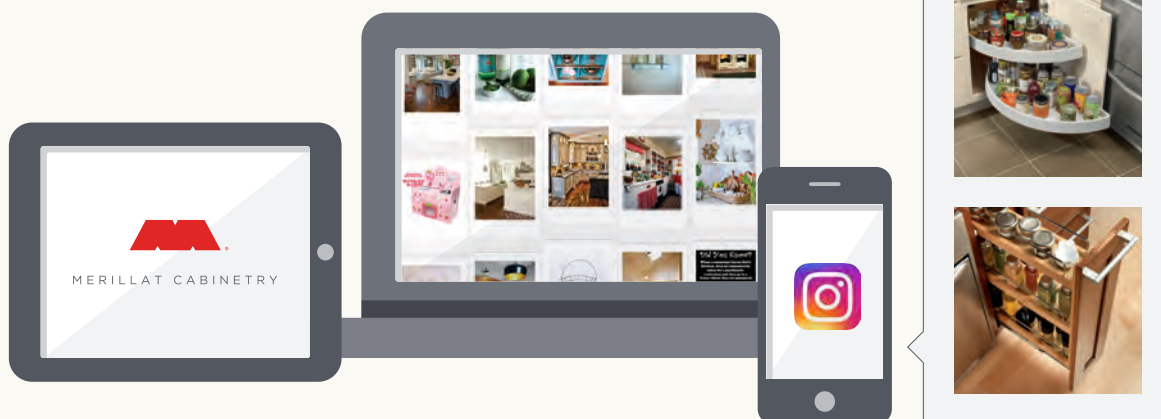

Imagine the possibilities, gather inspiration, and form your vision.

“ The kitchen is the hardest working room in your home, make it a space you want to be in. Choose your favorite things, don't be afraid to use color, mix and match materials, show your personality—make it your own! – Gail Henning, Designer, Merillat® Cabinetry ”

Inspiration. Everywhere.

Dream—there are no rules. Look everywhere. Take pictures. Tear out magazine pages. Browse online. Then collect your ideas in a way you can share with your design professional. They will help tie all the pieces together.

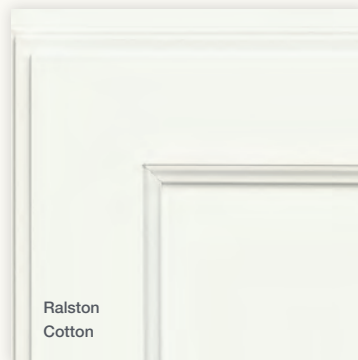

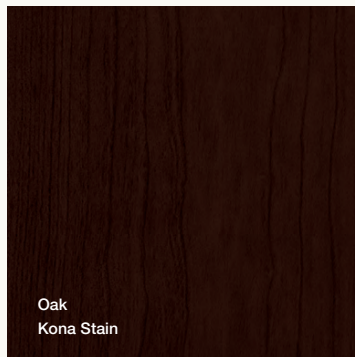

Dream with us.

To dream in Merillat cabinetry, view our inspiration page featuring rooms of every style at Merillat.com.

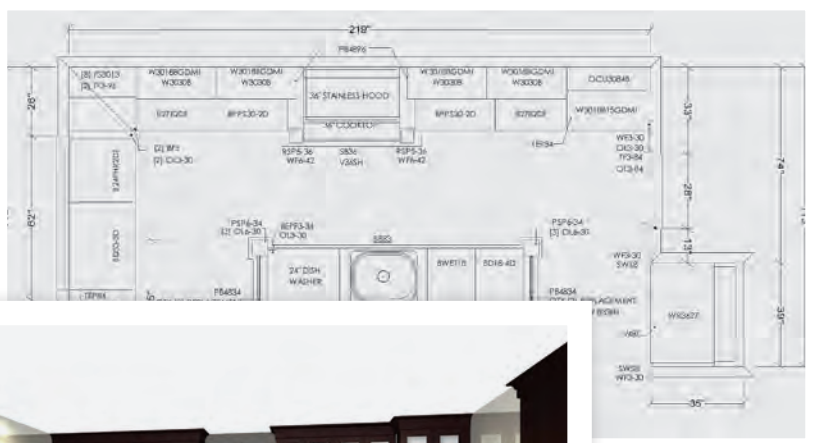

Step 2: DESIGN

Bring your dream to life, and see how Merillat® Designer Tracy Riel worked with a couple to fulfill their vision.

“We started with their checklist. What she wanted vs. what he wanted. We found commonalities and contrasts. And in the end, we found a beautiful solution.”
– Tracy Riel, Designer Merillat® Cabinetry

“After getting to know their wants, I put it together in a drawing. It starts with a floor plan and evolves into a 3D model they could both react to.”

Step 3: DECIDE

Pinpoint your preferences, and make the choices that will make the space your own.

Wood Type.

Maple (M)

Maple is a popular choice featuring a fine uniform grain that takes a color quite well. Maple is versatile and available in nearly every color combination. A very consistent wood type.

Oak (O)

Oak is a heavy, hard wood, and has a medium-fine, noticeable grain. It gives you dramatic lines that play quite differently off of each color.

Cherry (C)

Cherry is moderately hard and heavy, and has a fine-to-medium uniform grain. Cherry is commonly thought of as a deep color, but is quite different depending upon your choice of stain. Expect variations.

Hickory (H)

Hickory is a very heavy, hard wood, and has a grain with quite a bit of variance. This creates a design element in and of itself, taking on colors in unique ways.

Finish Type.

Paint (P)

Offering eye-catching colors that express your style and consistent coverage of wood grain, knot holes, and more, paint is a great option for achieving a sleek, uniform look. When paint is selected, the drawer front, door stiles, door rails and/or door center panel may be constructed of a paint-grade substrate, a material that helps provide resistance to warping, expansion and contraction.

Stain (S)

Stains allow the natural beauty of wood to show. Each wood species has its own unique grain variation and can have a dramatically different look when stain is applied and brush-wiped. The amount of grain and natural beauty marks of wood will vary by species.

Door Type.

Partial Overlay (PO)

Overlay is the amount of face frame covered by the door and drawer. The reveal on partial overlay cabinets is typically 1 inch. A partial overlay creates a traditional look and is typically less expensive.

Full Overlay (FO)

An overlay that covers most of the face frame, giving prominence to the door and drawer design. A full overlay creates a more custom and clean look.

Recessed Center Panel

The center goes inward. Recessed panel designs offer an understated elegance to your cabinetry.

Raised Center Panel

The center panel is raised. It provides design dimension and interest.

Slab Panel

A flat panel with no variance in the center. It provides a clean, modern look that dares to be simple.

Ready for Anything:

COREGUARD® SINK BASE

The Merillat® innovation team has taken a common problem and created a game-changing solution: the CoreGuard Sink Base Cabinet.

Designed to resist damage from minor leaks, spills and stains, our CoreGuard Sink Base Cabinet allows for simple cleanup, is available with a utility tray option, comes fully assembled, and can be installed just like a standard sink base. Plus, it comes with the same 25-year limited warranty available on all Merillat Classic products.

Learn more about the CoreGuard Sink Base Cabinet at Merillat.com.

 *Cleaner.*

 *Stronger.*

 *Smarter.*

COREGUARD®
SINK BASE

How it works:

1. Engineered polymer sides, back and floor help resist damage caused by spilled liquids and stains.
2. Raised ribs on the cabinet floor helps to keep stored items dry.
3. The cabinet floor is slightly inclined to direct flow to front of cabinet for easier detection.
4. A protective lip overlaps the bottom cabinet rail.
5. The cabinet has no center rail in between the doors, making access to the cabinet interior easier.

Step 4: DELIVER

Prepare for arrival, get ready for installation, and enjoy your new room.

Your vision. Ordered.

- Receive a final design packet or order confirmation from your designer.
- Have you ordered your new countertops? Appliances? Lighting? Backsplash? Flooring? Confirm you have everything you need for your project to go smoothly.

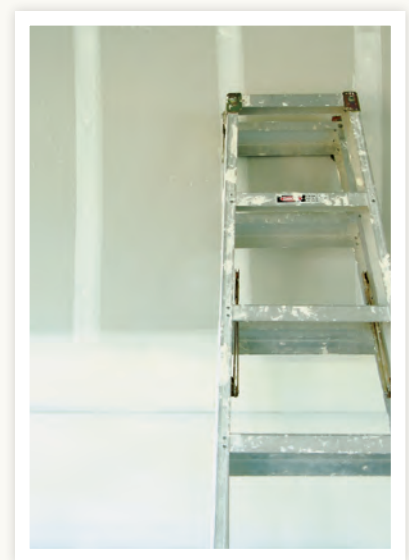

Your cabinets. Arrived.

- Prepare your home for construction – it's almost time!
- Schedule a delivery time with your dealer.
- Make sure you have cleaned out your old cabinets, cleared a path for your new cabinets to arrive and selected a place to store your cabinets prior to installation.
- You will soon have installers and other tradesman working in your home. Make sure your little ones (kids or pets) have a safe place to play.

Your kitchen. Installed.

- Depending on the complexity of your design, it may take a few days or longer to get your cabinets out of the boxes and onto your walls.
- When will they begin? What should you expect? Be sure to gain a full understanding of the process with your professional installer.
- Where will you eat? How will you wash dishes? Will you put your refrigerator in another room or the garage? Prepare to be without your kitchen or bathroom during installation.

*Enjoy your new space —
it's time to celebrate!*

YOUR DREAM. OUR PASSION.

“ This is when the process becomes all worth it. It is the result of your dream, a great designer, excellent products, a quality installer. The rest is up to you. – Mark Van Sickle, Master Craftsman, Merillat® Cabinetry ”
