2021 Catalog

From Ordinary to Extraordinary.
7 Solid Reasons Why.

It's all in the details – the right decorative hardware just makes the look. More than an accessory, the hardware is the jewel that draws the eye, accentuates the style and adds elegance to the space it graces. But true beauty goes beyond initial good looks. It's in the style, the depth of the finish and the weighty feel of the piece in your hand.

It Starts with the Finish.
Top Knobs' commitment to superior finishes begins with high-grade metals, molds and lacquer. Each hue richly and beautifully crafted - for a difference you can clearly see.

To Have and to Hold.
Smooth to the touch. Every edge, corner and detail individually inspected, hand polished and made to fit your hand. It just feels right.

Solid Construction.
The weighted feel and character of each creation tells you no corners were cut, no backs hollowed. Every piece as it should be… as exceptional as your space.

Lasting Protection.
Our completely sealed finish won't show wear, especially on the knobs and pulls used most.

Guaranteed for Life.
Your hardware will last for years. And we back it with a lifetime warranty for the original purchaser.

Display Towers

A DISPLAY OF FINE CRAFTSMANSHIP.

Quality you've got to see and feel to believe.

While the beauty of our collections is apparent in our catalog, it's important for customers to experience our knobs and pulls first-hand in the showroom. Our display boards encourage customers to see, touch and examine the fine craftsmanship and beautiful design for themselves – feeling the solid weight in their hands.

To complement the form and finish of our collections, display boards are available in white or maple finish and come in a unified size – 22.5" x 22.5". In addition, you may select from our two 12-board premium wood display towers, which come in a maple or white finish.

Make drilling holes for cabinet pulls easy!

Part #: TKTEMPLATE

Our new installation template is your all-in-one tool for marking hole locations for cabinet pulls. Use the rulers on the edges of the template to measure your doors and drawer fronts.

The flexible and transparent tool also includes predrilled holes for our most common pull sizes. Simply align the tool with the center of your drawer or your desired location on doors, mark the hole locations from the tool, and drill the holes.
