MOULDING COLLECTION

The Modern Craftsman Moulding Collection blends the simplicity of profiles found in Craftsman style homes built in the early 20th Century while still maintaining proper scale and proportion, inspired by our Classical Moulding Collection. These profiles are not scant. They are all milled from poplar which creates deep incisions and crisp edges, ensuring each shadow line is purposeful and meaningful. It works great today as a simple, yet bold application for those looking to achieve a modern look with a classical edge.

TYPICAL MOULDING

The profile above has rounded edges and shallow mill lines, creating a lack of definition and a softening of the original design.

KB CLASSICAL MOULDING

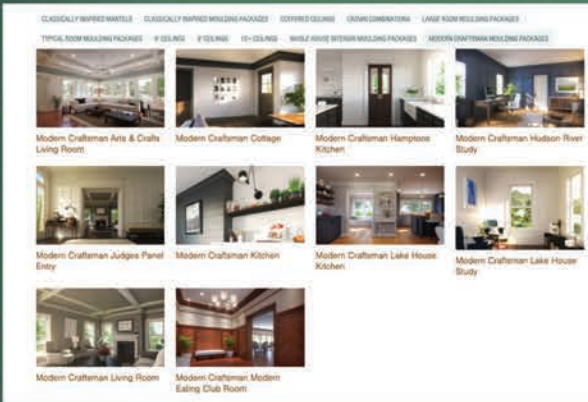

Kuiken Brothers Classical Moulding profiles have deep incisions carved into the poplar creating strong shadow lines allowing the original classical design to define the space where it is installed.
